

# WHOLESALE INFORMATION GUIDE

## Container and/or Project Orders

With over 30 years of combined experience, JJ Cabinet Warehouse has been committed to providing quality products at a competitive price point to the North American market. Our wholesale offering is available to clients placing orders at 20 kitchens or more.

Wholesale orders receive the following benefits:

- Discount level above fixed contractor pricing
- Ability to change door styles and colors without affecting price point
- Orders shipped immediately for a lead time of 10 weeks or less from order date

We request all containers are pre-paid in full before the shipment leaves the manufacturer.

### INTRODUCING OUR EVOLUTIONARY READY-TO-ASSEMBLE SYSTEM: SHAKER WHITE FRAMELESS CABINETS

This brand new system of assembly is a one-of-a-kind method of construction exclusive to JJ Cabinet Warehouse and a pivotal moment in the cabinet market. Our Shaker White Frameless Cabinets are manufactured with custom cabinet-like features, making them the only RTA cabinets built without a traditional fastening system. What clients love about this system is that it's built with glue and screw construction, similar to custom cabinetry, but packaged just as a typical RTA system would be with all components in one box, including instructions and hardware.

Our Evolutionary Ready-to-Assemble System also includes the following unique manufacturing details:

- Cam lock-free
- Bracket-free
- Plywood carcass
- 5/8" plywood sides, backs and bottoms
- 5/8" plywood adjustable shelves
- Solid birch drawer boxes with dovetail joinery
- UV clear maple interior finish for durability
- Soft close hardware features with adjustable hinges and glides for easy alignment

In addition, our Shaker White Frameless Cabinets have much quicker lead times than ever before with orders fulfilled within one to two weeks. In cases where you have missing or out of stock cabinet components, you have the ability to pull inventory from one of our national warehouses. For first time container orders, we can determine what skews or

cabinet configurations would be best to order to maximize your kitchen sales.

### RESELLER PROGRAM

Our reseller program is unique to wholesale clients as it gives you the opportunity to sell plywood cabinetry without needing to warehouse or manufacture components.

With help from our in-house design team, you can resale cabinets — both framed and frameless — in up to 10 colours for kitchens, bathrooms, basements, entertainment units, hutches and office cabinetry. In addition to cabinets, our resale program provides clients the option of laminate, granite and/or quartz countertops.

Contact us for more information or to get enrolled in one of our programs today.
